

# Bottom-Load Dispenser

## Features

This Bottom Load Water Cooler is a contemporary model with advanced self-cleaning technology. It is equipped with large hot and cold paddles for no-contact dispensing, features a convenient bottom load design, and has a bright LED indicator lights to alert you when a bottle needs to be changed, when hot and cold water are ready to dispense, and when self-cleaning is being performed.

**Bottom load design:** Effortlessly replace water bottles - no heavy lifting required.

**Child safety lock:** Equipped with child safety lock to prevent accidental hot water pours.

**Modern design:** Sleek, minimalist curves and lines complement any space.

**Self-cleaning:** UV dispenser runs on a continuous UV cleaning cycle.

**Compatibility:**

Water dispenser is compatible with 3- or 5-gallon (12- or 19- liter) water bottles.

**Cold Water Controls:**

Easily control the temperature from 37°F–50°F.

**Hot Water Controls:**

Water Temperature controls from 176°F–198°F. Disable the heating feature by switching the heating switch to the Off position.

**Electrical:**

UL, Energy Star

**Quality:**

The models covered by these specifications are manufactured to comply with the standards of overseas quality program.

**Warranty:**

Limited warranty of one year and limited to repair or replacement of parts, which prove defective under normal use and service and which Vendor shall determine in its reasonable discretion upon examination to be defective.
